Monsoon to hit Kerala coast Likely GI tag in EU seen to boost on May 30, says Skymet

"The onset of southwest monsoon over Kerala is likely to be on May 30, with a model error of +/- 2 days; "Skymet said in a statement. India Meteorological Department (IMD) will release its onset forecast on Saturday.

Lastyear, IMD had initially predicted onset on june 5, with a model error of +/- 4 days and later revised it to June 1, which proved correct, after a cyclonic circulation over the Bay of Bengal helped in the progress of monsoon. This also will be assisted by the MJO (Madden Julian Oscillation) entering Indian Ocean with moderate amplitude. The monsoonshow-ers will be intense and helw-ers will be intense and helw-

Though the Centre's liq-uldity infusion scheme under the Atmanithar Bharat pack-age helped these discoms to bring down dues to central public sector units (CPSUs) and independent power producers (IPPS) down from 827,000 crore to \$5,688 crore at the end of March 2021, the dues remain stage-grindy high.

that while the discoms owed UPPVUNL 810,500 crore, the des of UPPCL stand at 75,800 crore and that of UPPLN state 82,800 crore in may be mentioned that UPRVUNL is a wholly-owned state thermal power company, having a generating capacity of 5474 MW. It operates four thermal power stations within the state, Ampara, Obra, Harduaganjand Parichha. The powerpurchase cost comes to around ₹60,000 crore per annum, against this, the revenue mopped up is approximate ₹40,000 crore per annum. "There is usually a gap of ₹1,200 crore to ₹1,200 crore to ₹1,200 crore to ₹1,200 crore to ₹1,500 crore permonth between the power purchase cost and the revenue realized from the consumers.
